

Quality Controller Vacancy

Do you want to be part of a company where the whole team can influence the direction of the business?

Company Overview

Plastic Engineering Solutions Ltd is an Employee Ownership Trust (EOT) company and as such the business and all our employees are motivated to succeed. We are a dynamic forward-thinking plastic injection moulding business based in the market town of Melksham in Wiltshire. We are good at what we do and have an opportunity for a shift Quality Controller to join the team.

Vacancy Details

Ideally, have knowledge of quality control methods within injection moulding. The ability to measure and evaluate parts to ensure our quality is maintained using hand measuring devices (e.g. vernier callipers, micrometers), shadowgraph projectors and Coordinate Measuring Machines (CMM). Training will be provided, if required.

It will also be advantageous to be a Microsoft Office user, especially with Excel experience. Excel is widely used for report writing such as First Article Inspection Reports, Initial Sample Inspection Reports & Production Part Approval Process, this also includes an understanding of process capability (CpK). Training will again be provided through internal and external training courses, where needed. Enthusiasm with a motivation to succeed is a must.

In return PES offers a market competitive salary which will be in line with experience, a company pension scheme and the opportunity to get on board as part of the EOT (Employee Ownership Trust). There is further opportunity for progression into Quality and Environment Management from our QMS ISO9001:2015 & EMS14001:2015 certified systems as you gather experience in the Quality Controller role and our processes.

The role requires the following alternate shift working:

06.00 – 14.30 Mon – Thu

06.00 – 13.30 Fri

14.00 – 22.30 Mon – Fri

13.00 – 20.30 Fri

Please forward your CV and letter of application to Christopher Jenkins our Quality Manager chris.j@plasticengineeringsolutions.co.uk. We look forward to meeting you.
